GERMAN SUBMARINE TORPEDOES STEAMER

Appears in Irish Sea and Arouses Uneasiness on Account of Nearness to Routes of Big Trans-Atlantic Vessels

CONFLICTING REPORTS FROM CONTINENT

UNITED STATES WILL PROBABLY STAND FIRM ON ITS WARNINGS TO ALL BELLIGERENTS AGAINST DE-STRUCTION OF AMERICAN VESSELS IN WAR ZONE-REPLY TO ENGLISH NOTE ON CON-TRABAND EXPECTED TO BE SENT IN A FEW DAYS

(BY ASSOCIATED PRESS)

LONDON, February 20 .- A German submarine appeared in the Irish Sea today and torpedoed without notice the British coasting steamer Cambank. Three were killed and a fourth was drowned, while the craw was taking to the boats.

At about the same time the Anglo-French fleets were bombarding the Dardanelles forts, and the Russians, according to a Petrograd telegram, were administering defeat to the Germans at Ossowetz, driving to the frontier the troops attacking the fortress.

Except for the less of life, the sinking of the Cambank, is not a serious matter, but the presence of a German submarine near the route of Atlantic liners causes uneasiners.

The Cambank apparently slowed down to pick up the Liverpool pilot when it was observed by the submarine and torpedoed.

While this sinking raises no diplomatic problem, a serious situation may arise out of the damaging of the Norwegian steamer Belridge, which, according to the British admiralty, was torpedoed off Folkstone. The Norwegian foreign office has ordered the Norwegian consulate at London to investigate, and report immediately with the object, it is thought of making representations to Germany if the facts are as stated.

Despite these facts the arrivals and sailings at British ports maintain their averages.

In the meantime the battles on the continent continue with ever increasing intensity. The offensive taken by the Allies early in the week, her wealfold in renewed activity all along the line. In a long report covering a week's operations, a Franch "eye-witness" claims many minor successes for the French, and the repulse of German counter attacks. The Germans too, make similar claims.

Aside from the Petrograd report of the German defeat at Ossowetz, there is no news from the eastern front. If this is correct, the German plans are entirely upset and the whole line along the

In the rest of Poland and the Carpathians where severe fighting is in progress, there is no change of positions of the opposing armies. In Bukowina, a battle is in progress along the Pruth river. A retirement here would shorten the Russian line enabling reinof cure forcements to reach them easily.

Serbians and Austrians are again facing across the Danube. Selim and Beigrade have been hombarded. This may mean the beginning of a new campaign.

AMERICA WILL PROBABLY STAND FIRM

WASHINGTON, D. C., Feb. 20.- The United States will probably stand firm on its warnings against the destruction of American lives and vessels and is making no reply at present to the British and German notes regarding respectively the use of the American flag on foreign vessels and dangers to neutral shipping in the MONEY ON SHEEP naval war zone around the British lates. This was indicated in high official quarters after the official text was read today. The notes were further examined, however, to determine if anything in either which might be construed later as an admission. Some high officials of the United States made it clear that the government will remain silent and observe developments. There is every prospect that there will be an answer, though, to the British note on contraband. In the Wilhelmina case, a decision from the prize court is expected soon.

ALLIES BEGIN ATTACK ON DARDANELLES

LONDON, February 20 .- The first serious attack by the British-French Meditercanean fireds, mainted by aircraft, was commenced yesterday and continued today with considerable success, according to the British official account. The Turkish official report, however, stated that no damane was done to the forts at the Dardansiles and casualties of defenders consisted of one killed and one wounded, but that there of the Allies' warships were damaged by fort fire. The British report said that the torts on the European side were silenced yesterday, only one on the Asiatic side firing and no warships were damaged. The Greek report said the Asiatic forts were silenced today. The object in the attempt to force the Dardanelles is to release large quantities of wheat in Russian warehouses, relieve the market and give Russia credit for war munitions,

GERMANY COMPLAINS OF SUBMARINE SALES

WASHINGTON, D. C., February 20.-Renewed complaints to the State Department in behalf of the German and Austro-Hungarian Embassies that submarines are being boilt in the United States and shipped in sections to Canada for re-shipment to England, Secretary Bryan promises an investigation.

GERMAN SHIP INTERNED AT BUENOS AIRES

BUENOS AIRES, Feb. 20 .- The atiquiated period during which the German steamer Holger might remain in this port having expired, the Argentine authorities have declared the vessel interned. The Holger arrived Thursday with crews of several merchant ships sunk during January and February by the cruiser Kronprinz Wilhelm.
